Professional Summary

Senior Mobile Engineer with 10 years of experience designing, developing, and shipping large-scale iOS, Android, and Flutter applications. Specialized in building intuitive, high-performance mobile experiences with modern architectures (RIB, VIP, MVVM) and scalable CI/CD pipelines. Proven ability to deliver product features that drive user engagement and business growth in fast-paced, cross-functional teams.

Experience

Senior iOS Development Engineer | Grab Holdings Inc – Singapore | 2022 – Present

Grab is Southeast Asia's leading super-app for transportation, food, and digital payments.

- Core member of the CX (Consumer Experience) team focused on improving engagement across Grab's user base.
- Implemented Traveler Pack card in the home screen, a major feature supporting international travelers.
- Led multiple A/B testing experiments in collaboration with the Food and Transport teams to improve Monthly Transacting Users (MTU).
- Partnered with product and data teams to analyze metrics and refine CX strategies.

Technologies: *Swift, SwiftUI, Flutter (Dart), Kotlin, GO, Git (GitLab), Jenkins*

iOS Developer | Comtel Solutions (Client: DBS Bank) – Singapore | 2020 – 2022

- Developed and enhanced core modules for DBS's main iOS app, focusing on financial planning and navigation.
- Improved app stability and UX through debugging, testing, and performance tuning.

Technologies: *Swift, Java, Jenkins, Git (Bitbucket)*

IT Engineer | Jobline Resources (Client: Accenture) – Singapore | 2019 – 2020

- Contributed to UOB Bank payroll management app (Android, Kotlin).
- Developed Singapore Pools iOS app from scratch, migrating from React Native to native Swift.

Technologies: *Kotlin, Swift, Jenkins, Git (Bitbucket, GitLab)*

Software Engineer | IronOne Technologies (Pvt) Ltd – Sri Lanka | 2015 – 2019

- Built and maintained enterprise iOS and Android apps such as *Victoria's Secret* for global clients.
- Contributed to R&D on image and audio processing for mobile platforms.

- Managed app store releases and QA distribution.

Technologies: *Swift, Objective-C, Kotlin, Java, Git(GitHub), SVN*
